ROCKET SUPPLY

4" Sorma I-Dia Dry Polishing Pads

\$5⁰⁰ OFF each
NOW \$23⁵⁰ each

A Must Try! Satisfaction Guarantee!

I-Dia Mx is a "flexible" disc used to sand, wet or dry, stone materials and engineered stones, replacing the traditional sand paper discs.

Benefits: • significantly higher duration • better finish for same grit size • no surface burning during finishing stage • very nice polishing on flat surfaces • excellent polishing result on all materials • reduction of storage of abrasives • Grits: 60 - 3000

Tech Tip: Use on marble at around 4000/4500 rpm on marble and granite. On engineered stone, work at 1800/2000 rpm, possibly use a little sprayed water, or a wet sponge, only a little, on grit #800 and #1500, **IMPORTANT DO NOT USE #3000 on engineered stone.**
